Nova Ai-Studio 2.0 · Product One-Pager (EN)

| What it is

Nova Ai-Studio 2.0 is a conversation-driven **AI marketing creative production platform**.

Users describe goals in natural language; the platform delivers **reviewable project files**—research briefs, landing pages, decks, video scripts, social packs—not just chat replies.

| Who it's for

Segment	Use cases
Brand marketing teams	Campaigns, GEO monitoring, competitive research
Agencies & studios	Pitch decks, comparison landing pages, social content
Solo creators	Templates from outline → PPT → video
B2B growth	SaaS growth playbooks, lead-gen landing pages
Education	K12 and academic writing (dedicated tab)
Enterprise IT	Multi-tenant SaaS or private Docker deploy

| Three core values

1. **Conversation → project delivery** — isolated workspaces, continuous memory, in-chat preview/download
2. **Marketing flywheel + scale** — 6 stages, 400+ capabilities, ~30 workflow templates
3. **Enterprise-ready** — tenant isolation, cloud file hubs, admin usage dashboards

| vs general chat AI

Chat products **answer**; Nova **delivers whole projects** with organized capabilities, templates, flywheel stages, and file acceptance in the thread.

| Key metrics

- 400+ ready capabilities
- ~30 workflow templates
- 6-stage marketing flywheel
